## DOVER — THE GATEWAY TO EUROPE

FOR CROSSING THE CHANNEL to mainland Europe there is no better starting point than Dover, Britain's most experienced Channel port.

### BEGIN YOUR CONTINENTAL JOURNEY AT DOVER

It's easy to reach by road and rail from all parts of the country (new motorways mean that it is now possible to bypass London), and unrivalled terminal facilities, a choice of operators and routes, and round-the-clock sailings enable you to start your Continental journey pleasantly and with a minimum of fuss.

And aboard today's fast, comfortable ferries, hovercraft and jetfoils, you will arrive refreshed and relaxed at the European port which is most convenient to the route you have chosen to reach your destination.

### FAST CHECK-IN. GREAT FACILITIES

You can expect the very best from the Port of Dover from the moment you arrive — even on the busiest of summer days when there might be as many as eighty departures, involving some 100,000 passengers, 25,000 cars, 4,000 lorries and 1,000 coaches.

Dover is geared up to being busy, to looking after its passengers 24 hours a day, and to making their passage through the port as smooth and problem-free as possible.

At the Eastern Docks, biggest and busiest of the four terminals, minimum check-in time is 30 minutes. If you come by car, your arrival is recorded by computer in seconds. With a destination label fixed to your windscreen, you will be directed to the vehicle assembly area, where marshals will make sure you board the right ferry. (Right by the assembly area there are refreshment facilities and shops in Barnacles. Welcome Break, a new restaurant and shopping complex, will open in the summer).

At the Hoverport, minimum check-in time is 30 minutes. For passengers without cars, check-in arrangements at all terminals are simple and quick.

For the comfort and convenience of travellers, Dover Harbour Board has recently completed a £55 million programme to improve tourist and freight handling facilities. This and future investment plans aim to meet the challenge of competition and increasing traffic of all kinds into the 21st century.

#### HOW TO GET TO DOVER

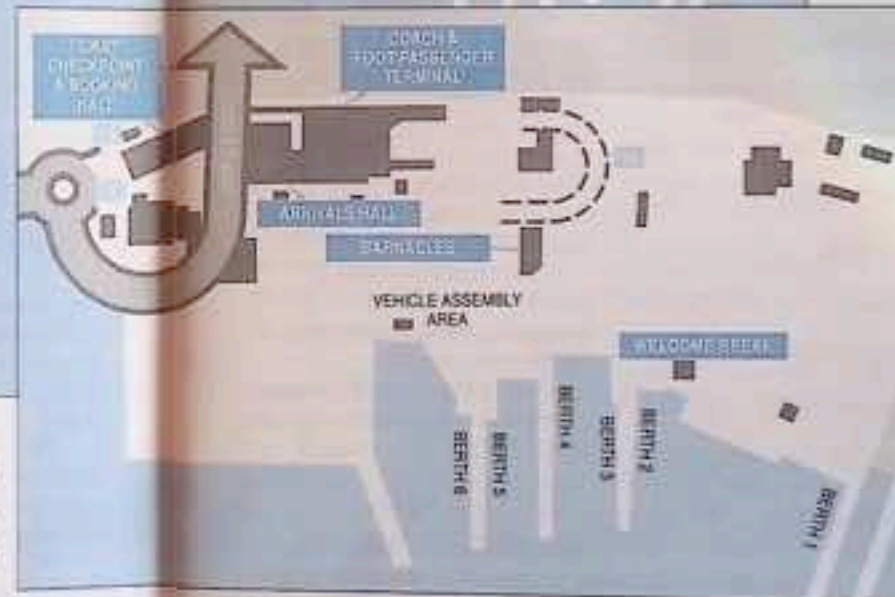

##### BY CAR

The opening of new motorways and improvements to existing roads has made Dover easily accessible from all parts of England.

The M20 from London linking up with the M25 or South London Orbital route gives traffic from the West of England a fine new link to Dover.

Getting from the West, the Midlands or North of England around London no longer presents any difficulty. The M11, M1 and A1 connect with the M25 which leads to the Dartford Tunnel and to the M2/A2.

From the West the M3 and M4 connect with the M25 which leads around the South of London to the M2/A2.

The M2/A2 and M20/A20 both provide motorway or dual carriageway links with the Port of Dover and both link to the M25.

For further information contact the Tourist Information Centre, Townwall Street, Dover. Tel: (0304) 205108.

#### DOVER CASTLE/ROMAN PHAROS

Dover's Norman Castle is not only an impressive landmark, it is a fascinating place to visit. See the famous collection of trophies and cannons. The castle also accommodates The Queen's Regimental Museum,

with life-size models and sound and smell effects depicting the role of the regiment in various engagements. In the grounds of Dover Castle is the Roman Pharos built in the second century AD as one of two light houses on the cliffs. The Pharos still stands 40 feet high and is the tallest Roman structure surviving in Britain.

#### DOVER MUSEUM

Situated next to the Town Hall, Ladywell, chronicles much of Dover's colourful history and houses a fascinating collection of Victoriana, model ships, clocks and watches.

#### ROMAN PAINTED HOUSE

An exceptionally well preserved Roman town house with the oldest and best preserved wall paintings in Britain and an elaborate underfloor heating system. The Roman Painted House is to be found in New Street, off Cannon Street, in the centre of town.

#### SAINT EDMUND'S CHAPEL

Situated close to the Town Hall, this is the smallest church in England still in regular use. Parts of the chapel were built during the 12th century originally consecrated in 1253 AD, the chapel is available to all Christian denominations.

#### TOWN HALL AND OLD TOWN GAOL

Situated in the centre of the town, the Town Hall was founded by Hubert de Burgh, Constable of Dover Castle, in 1203 as the Hospital of St. Mary. Now known as Maison Dieu, the building was used as a hospice for travellers and pilgrims for over 300 years. It contains interesting stained glass windows, paintings, weapons and armour, with a fully restored 19th century gaol, beneath the building offering a unique opportunity to 'experience' Victorian prison life — the presentation features audio visual techniques and talking models.

#### THE GRAND SHAFT

Built for military use during the Napoleonic wars, this 140ft triple staircase links Snargate Street with the Western Heights. Marvellous views reward the climb.

## ACROSS THE CHANNEL

From Dover there are four routes to the Continent; to Calais and Boulogne, in France; to Ostend and Zeebrugge, in Belgium. Good road and rail systems connect the ports with all parts of mainland Europe.

## CALAIS

Only 21 miles from Dover, Calais is served by up to 56 crossings a day on the fastest and shortest route for cross-Channel travellers. New super ferries now take as little as 75 minutes for the crossing; by hovercraft, the journey time is only 35 minutes.

For car travellers, the A26 autoroute extends to the outskirts of the port; there are international trains from the harbour station.

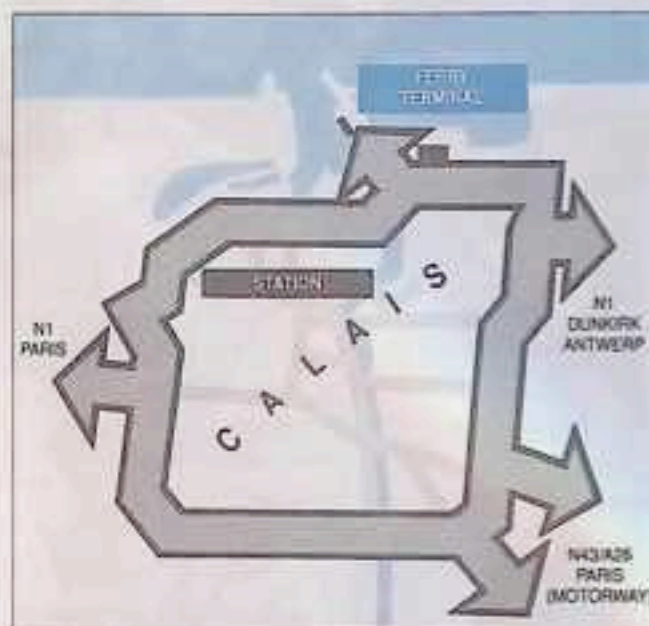

A popular day-out excursion from Dover, Calais has much to offer — historic buildings as well as attractive shops and stores. Ferry operators run free bus services between the docks and town centre.

Open air markets are held on Thursdays and Saturdays, with a covered market just off the main square on Wednesdays and Saturdays.

Crossings: by P & O European Ferries from Eastern Docks; by Sealink from both Dover Eastern and Western Docks; by Hoverspeed, from the Hoverport, Dover Western Docks (see also pages 7-11).

## BOULOGNE

Only 100 minutes from Dover by ferry and 40 minutes by hovercraft, Boulogne has easy access to the French motorway network with a town bypass which joins both the toll-free N1 to Amiens and Paris and the dual carriageway N42 which connects with the A26 motorway to Lille and Paris.

Boulogne is also the major motorail station in France, with regular connections to Biarritz, Bordeaux, Brive, Narbonne, Avignon, Frejus/ St. Raphael and Milan.

With the ferry terminal actually in the town, Boulogne is popular with day trippers. There are good shops, an attractive market on Wednesdays and Saturdays (open from 0700 and 1300 hours), and, within the old

city walls, a 13th century castle, cathedral, belfry and other places of interest. Within easy reach is the beautiful countryside of the Pays d'Opal, with attractive resorts and towns, including Le Touquet, Hardelot, Montreuil, Desvres and Hesdin.

#### MOTORWAY ROUTES

#### OSTEND

Not only a busy ferry and fishing port, Ostend is also a lively and attractive resort, with a wide range of indoor and outdoor attractions, sandy beaches, good shops, attractive parks, picturesque harbour and marina, casino and other entertainment.

#### ACROSS THE CHANNEL

Journey time by ferry is 3 hours 45 minutes, 100 minutes by jetfoil (foot passengers only).

The terminal (ships and jetfoil) is linked directly with the international railway station and — by a four lane road to the E40 motorway which gives access not only to all of

Belgium but also to the Netherlands, Luxembourg, Germany and the rest of Europe.

Supermarkets (open until 2000 hours on weekdays), shops (mainly open until 18.30; some on Sundays, too, in summer), restaurants and cafes are a short walk from the terminal. A market is held on Thursday mornings in the centre of Ostend; also on Saturday mornings during the summer.

Crossings: by P & O European Ferries from both Dover Eastern and Western Docks (up to seven daily;

by P & O European Ferries/RMT jetfoil (up to five daily) for foot passengers only (see also pages 7-11).

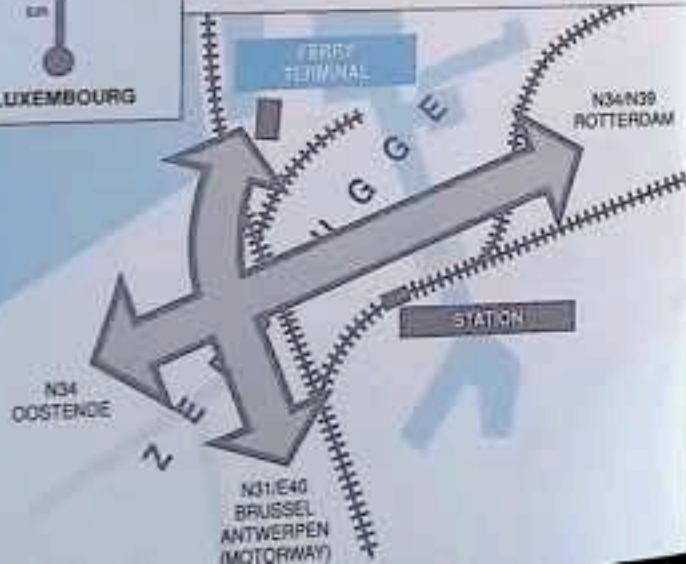

## ZEEBRUGGE

At the northern end of the Belgian coastline, the port is linked by dual carriageway to the same motorway which serves Ostend. With attractions of its own — including sandy beaches and a daily fish auction (0700 hours), weekly market (Fridays, 0800 to 1300 hours) — Zeebrugge is only a short drive from Bruges, most beautiful of Europe's medieval cities. Gabled houses overlook winding street and canals. There are many art treasures, fine shops, good restaurants, and a lively market on Saturdays.

Shops in Bruges are open from 0800 or 0900 to noon and from 1330 to 1800 or 1900 hours (usually until 2100 hours on Fridays).

In general, there is no fixed half-day closing, but shops of the same kind tend to close on the same days; for example, hairdressers and florists on Mondays; butchers on Fridays; clothes shops and supermarkets on Sundays. Most shops are open on both Saturdays and Sundays.

Crossings: by P & O European Ferries from Dover Eastern Docks (up to six a day, taking four hours), (see also pages 7-11).
